CISD Families,

The Kentucky Departments of Public Health and Education, based on guidance from the Centers for Disease Control, have advised school districts that they are no longer required to perform temperature checks on students prior to entering the school building. For the record, at CISD, we have NEVER had a student come to school with a fever since instituting these checks at the start of the school year. We are confident in our ability to maintain a healthy and safe school environment without checking every student's temperature every day.

As always, we ask that parents keep their children home if they are showing symptoms of COVID-19. For our part, any student appearing symptomatic will be sent to the nurse and evaluated immediately. Other health precautions remain in place, such as social distancing and the use of face coverings. Additionally, at least 80% of our staff have been fully vaccinated for COVID-19. I remain proud of the fact that there has not been a single case of coronavirus transmitted in our school building. We intend to keep it that way!

Please, feel free to reach out to me at (270) 788-3388 x 113 or keith.haynes@cloverport.kyschools.us with any questions or concerns.

Respectfully,

Keith Haynes
CISD Superintendent
